**August  
23,24,25**

# **Yellow Pavilion**

**1st Industrial Parks Exhibition  
National and international**

1st Industrial Parks Exhibition  
National and international

# The first exhibition of its kind at a national level with international projection.

## Conferences of Exhibitors and Specialists

It will bring together, on August 23, 24 and 25, different national and international industrial groups. Including industrial, technological, logistics, sustainable parks, free zones and clusters.

The industries and companies located in

of the country and abroad on the themes of sector.

them and the entire value chain of groups (suppliers, investors, builders, developers, real estate, financiers, etc.) will also participate.

During the 3 days there will be:

Meetings with CEOs of large companies and industrial SMEs.

Reverse Missions.  
Round of National and International  
Business.

Special sector of Integral Logistics.  
Participation of RIA (International Network of  
Industrial Groups).

Within the framework of the Industrial Parks  
Exhibition, the 4th Edition of the Industrial

Congress of the National Consensus of Labor  
and Production will be held.

An opportunity to promote great business  
opportunities between Industrial Parks and  
representatives of the participating national and  
international companies!

## Objectives

### 1st Industrial Parks Exhibition National and international

That national and international industrial groups expose their characteristics, regional particularities and the advantages and benefits they offer to established industries and companies.

That the industries and companies located in parks and planned industrial sectors present and offer their products and services.

Promote great business opportunities between the Industrial Parks and the representatives of the participating national and international companies.

Generate meetings throughout the value chain of industrial parks: suppliers, developers, investors, real estate agents, builders, etc.

## 4th Congress of the National Consensus on Labor and Production

Within the framework of the 1st Exhibition of Industrial Parks, the 4th Edition of the Industrial Congress of the National Consensus of Labor and Production will be held.

Hundreds of representatives of small and medium-sized Argentine companies, together with union representatives and social movements, will debate and present their

proposals, needs and concerns on the main issues of the industrial sectors of our country..

Important CEOs and Executives of large companies in the Financial, Energy, Hydrocarbons, Mining and other strategic sectors for the development of the industry, will speak about the present of each activity and will reveal the medium and long-term plans.

Senior national, provincial and municipal officials, and prominent leaders from all political sectors, will present their projects and

their outlook for the growth of economic activity and the strengthening and development of the national industry
