**Waste
Management
Europe**

Past Edition's Welcome Address from the Mayor of the city of Bergamo ➤

As Mayor of Bergamo, I am delighted that Waste Management Europe took place for the first three editions in Bergamo, a city deeply committed to sustainability and the environment. Bergamo is one of the 100 European cities participating in the EU mission for 100 smart and zero climate impact cities by 2030. Among our many goals are the management of a circular economy, a drastic reduction in waste production, CO2 emissions, and pollution. Achieving an efficient circular economy requires significant changes in our production and consumption patterns. WME serves as an incubator for innovative ideas and best practices in the field of waste management. It is a place where you can meet many of the top players in the industry, identify competitors, and create new synergies.”

Giorgio Gori

Mayor of the City of Bergamo

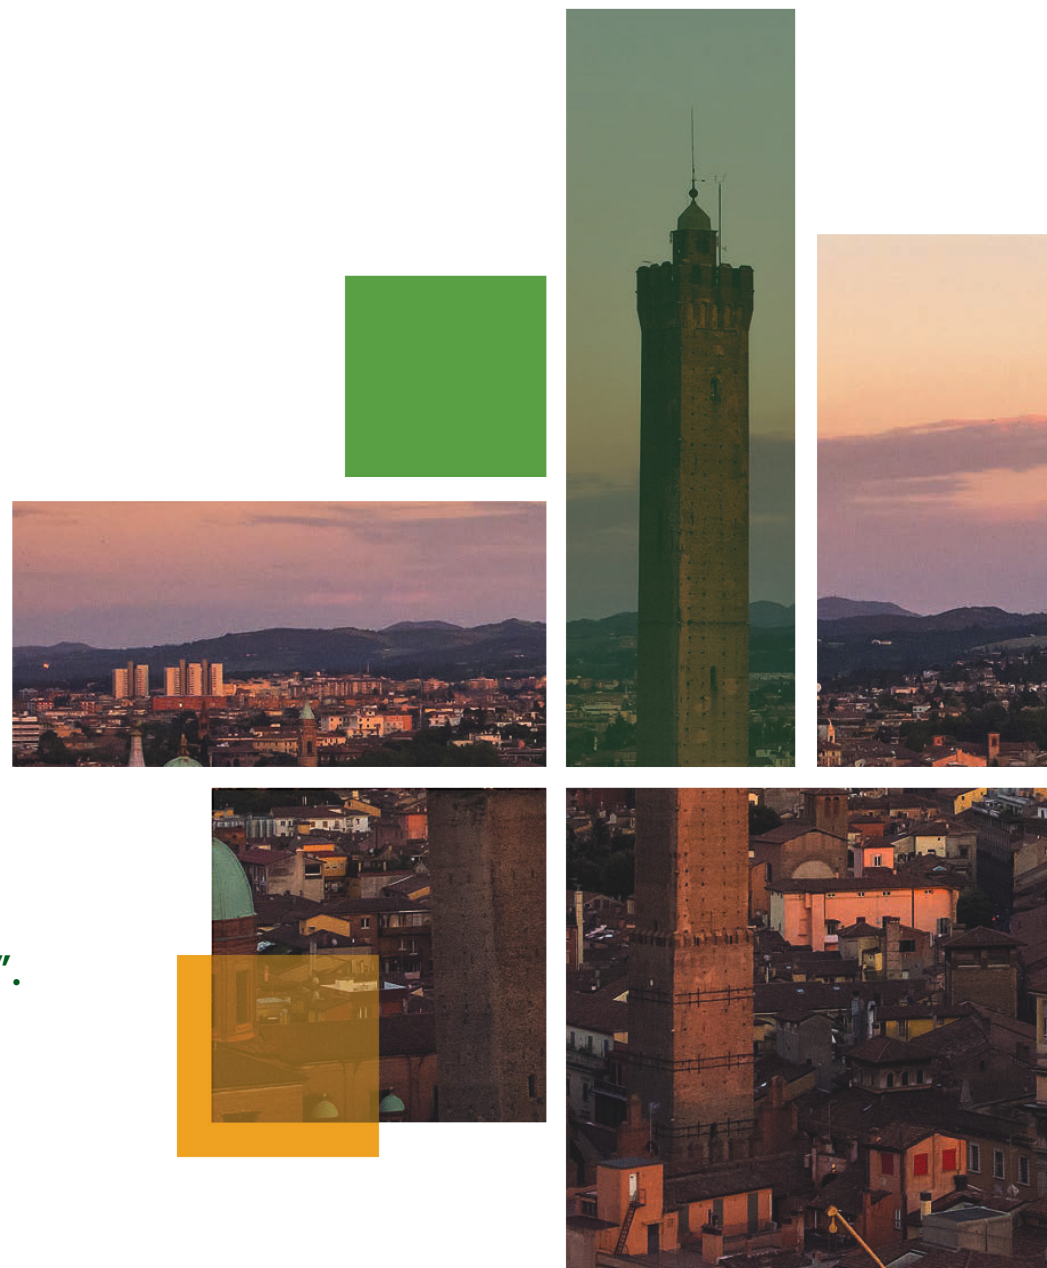

➤ **No Time to Waste**

Innovating Smarter Waste
Management Strategies
for a more Sustainable
and Circular Future.

Waste Management Europe
moves to Bologna, one of the EU Mission
“100 climate-neutral and smart cities by 2030”.

Meet some of the brightest minds in the Circular Economy

Claudia Mensi
Manager
The European Waste
Management Association
(FEAD)

Mattia Pellegrini
Head of Unit, DG
Environment
The European Commission

Hon. Sen. Patty L'Abate
VP Environment
Commission
Camera dei deputati &
Professor in Ecological
Economics and Management

David Lamy
Director-General of
Recycling & Recovery
SUEZ

Mary Deodati
Unità Assistenza Tecnica
Sogesid S.p.A. Ministero della
Transizione Ecologica

Roberto Sancinelli
Chief Executive Officer
Montello

Marta Schiraldi
Safety, Health, Environment
and Sustainability Head
Nestlé Group Italy

Herwart Wilms
Managing Director
REMONDIS

Camilla Colucci
CEO
Circularity

Mauro Sanciolo
HSEQ - Environment -
Waste Management
ENI

Simone Malvezzi
Head of Waste to Energy
Plants
A2A

Valentina Lucchini
Head of Sustainability &
Corporate Identity
Itelyum

Elena Grandi
Councillor for the
Environment
Municipality of Milan

Marco Blazina
Wastewater Treatment
Plants Director
MM Spa Milan

Charoula Melliou
Head of Policy
ESWET - The European
Suppliers of Waste-to-Energy
Technology

Nikolai Jacobi
Senior Expert
ICLEI Europe

Join Europe's most collaborative and connected Waste Management Event ↘

The Waste Management Europe 2025 Conference & Exhibition promotes cutting-edge thinking in applying innovative solutions to some of the world's greatest challenges.

By connecting global experts in waste management, recycling, reuse and circularity, WME 2025 catalyses the acceleration of positive change and inspires both individuals and organisations to improve their own strategies and implementation.

The Exhibition

4,000+

Attendees

150+

Participating
Companies

The Conference & Theatre

100+

Speakers

250+

Delegates

Exhibition Overview: Industry sectors ▾

Waste Management

Municipal Waste, Commercial Waste, Hazardous Waste, Primary Industrial Waste, Waste Crime

Wastewater

Treatment, Processing, Storage, Infrastructure, Analysis

Waste to Energy

Food & Agricultural Waste, Biogas/Biomethane, Incineration, Technology

Recycling

Paper, Card, Textiles, Glass, Plastics, Tyres, E-Waste, Metals, Building Waste, Hazardous Waste

Digital & A.I.

Digitalisation of Operations, Cloud Software, RFID, Detection & Monitoring

Transportation

Treatment, Processing, Storage, Infrastructure

Health & Safety

Protective Equipment, Breathing Apparatus, Training, HSE Technologies, Air quality control, Pollutants, Analysis

Exhibition & Conference Features ▾

- International Partnerships **(NEW)**
- European Conference Advisory Board **(NEW)**
- Enterprise Europe Network **(NEW)**

- Industry zones

- Waste & Recycling Technology Zone
- Waste-to-Energy & Wastewater Zone
- Green & Smart Cities Zone **(NEW)**
- Green Packaging Zone **(NEW)**
- Digital & AI Innovations Zone **(NEW)**

Visitor Profile ↘

Industry:

- Cement
- Mining
- Steel
- Civil Engineering
- Food and Beverage
- Farming
- Plastics and Rubber Products
- Manufacturing
- Chemical
- Industrial Machinery Manufacturing
- Biotechnology
- Utilities
- Oil & Gas
- Automotive
- Software

Job Title:

- Chief Executive Officer (CEO)
- Chief Sustainability Officer (CSO)
- Chief Operating Officer (COO)
- Vice President of Sustainability
- Vice President of ESG
- Vice President of Supply Chain Sustainability
- Vice President of Supplier Diversity
- Director of Sustainability
- Director of CSR
- Director of ESG
- Sales Manager

A platform to catalyse progress & collaboration ↘

The two-day international conference offers comprehensive coverage with expert speakers from around the world, with debates and deep-dives into the following themes:

Delivering Sustainability & the Circular Economy

- Implementing innovative processes to reduce waste
- Attaining objectives to decrease consumption and prevent waste generation
- Showcasing the latest case studies and concepts in "designing out" waste

Wastewater & Water Delivery:

Better Management,
Treatment & Recycling

- Enhancing water treatment processes and quality for users
- Introducing innovations and solutions for sewage and wastewater management
- Examining environmental and biodiversity best practices

Greener, Smarter Cities & Regions:

Learning from the Best

- Showcasing case studies in waste management delivered by city & regional leadership
- Sharing international, national, and regional case studies
- Integrating cutting-edge technologies with practical implementations
- Promoting greater cooperation between regions and nations to reduce waste

Utilising Waste-to-Energy Cleanly & Efficiently

- Harnessing waste efficiently to cleaner energy
- Applications to drive more efficient, cleaner waste to energy processes
- More effective technologies to slash carbon emissions and minimize ash waste
- Practical applications of Waste-to-Energy with case studies

Harnessing AI and Big Data for Sustainable, Smarter Solutions

- Maximising recycling efficiency through advanced applications of technology
- Understanding the value of digitalised operations and applications
- Driving innovation through embracing big data, cloud and RFID opportunities
- Delivering more accurate, advanced, multi-purpose recycling operations for clients

Food & Agricultural Waste Management Strategies

- Developing improved food systems to eliminate waste
- Exploring uses for food waste, such as animal feed and bio-products
- Highlighting biogas and anaerobic digestion projects

Reducing Business & Industrial Consumption

Cutting Waste

- Decreasing energy and material consumption while enhancing efficiencies
- Assessing the ecological footprint of your business
- Implementing effective energy and materials management strategies to save money and reduce waste
- Addressing the ongoing challenge of energy costs

Plastic Waste

Next Developments
and Regulations

- Predicting the implementation of plastic taxes across the EU and their impact on producers
- Phasing out single-use plastics in consumer and industrial manufacturing processes
- Showcasing innovations in packaging and materials storage

azzurra è possibile

Significant Benefits for Delegates Include ➤

Engagement with Waste Management professionals across the green value chain

Connect with thought leaders and innovators driving change in Waste Management practices

Quality face-to-face time with leading experts in Waste Management, representing global organisations, institutions, manufacturers, local & municipal leadership, technology innovators, research institutions and SMEs and solutions

Explore collaborative opportunities with the key players in European Waste Management

Solution Theatre ➤

The scientific-technical conference will take place in a purpose-built theatre located in the Exhibition Hall, open to all visitors, speakers, conference delegates, and exhibitors.

Please note that speaking opportunities at the Theatre will be limited to exhibiting companies or sponsors of Waste Management Europe 2025, with a limited number of slots available for companies and universities.

What to expect from the 4th edition ↘

A significant increase in the number of local and international exhibiting companies

Deeper engagement with local and international policymakers

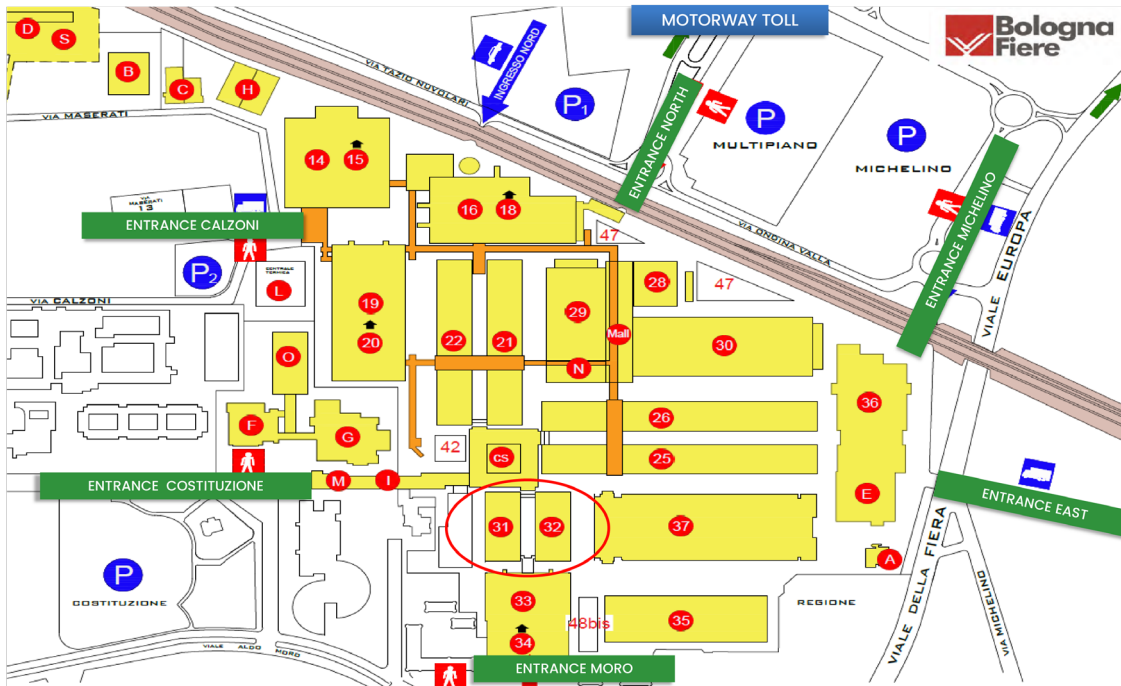

Greater vertical focus coverage in the conference

Special attention to start-up companies

Sponsorship Opportunities ↘

Be seen by a global audience of waste management professionals at WME 2025

- Drive traffic to your booth, ensuring key people view your innovations, products, and services
- Maintain high visibility as a high-profile WME supporter
- Generate new sales leads
- Associate yourself with one of the leading waste management events in Europe
- Network with key decision-makers in the waste management sector
- Meet new contacts in your market
- Leave a long-lasting impression after WME concludes

Take a look at our sponsorship opportunities and find the most suitable for you!

Some of the sponsorship items you can select ↘

By visiting Waste Management Europe you will

- ☀ Meet, Network, Share ideas and Conduct business transactions with the community
- ☀ Discover the latest technologies and innovations
- ☀ Find solutions to improve your company's efficiency and bottom line
- ☀ Gain a vision of the future
- ☀ Discover new ideas and inspirations
- ☀ Participate in live products demonstrations
- ☀ Forge new partnerships
- ☀ Generate new business opportunities

Participation Costs:

Options	Rates
Indoor Space only	€390,00/SQM
Shell Scheme Package Supplement including: carpet, walls, socket, lighting, banner with company name (no logo), table with 3 chairs, wastebasket, cabinet, coat rack	€60,00/SQM
Turnkey Package Supplement including: carpet, walls, plug, lighting, banner with company name (no logo), table with 3 chairs, wastebasket, cabinet, reception desk with stool, wall hanger	€ 90,00 / SQM
Outdoor Space only	€90,00/SQM
Registration Fee (mandatory)	€490,00/SQM

➤ An event becomes truly extraordinary when passionate individuals and promising companies unite to shape the future of the industry, delivering innovative solutions that not only drive the industry sector onward and upward but also contribute to a sustainable planet.

We thank all attendees for the great support received over the years, and we eagerly look forward to welcoming you all again to the upcoming 2025 edition.
