

**INSTRUCTIONS FOR APPLICANTS TO THE PUBLIC TENDER FOR THE SUBMISSION
OF PROGRAMS/PROJECTS BY CROATIAN DIASPORA ORGANIZATIONS IN
OVERSEAS AND EUROPEAN COUNTRIES FOR 2026**

Introduction

Dear applicants, we kindly ask that before completing the online application form for the *Public Tender for the Submission of Programs/Projects by Croatian Diaspora Organizations in Overseas and European Countries for the Purpose of Obtaining Financial Support for 2026*, you carefully read these instructions to ensure that your application is submitted correctly, and the electronic form is completed properly.

We recommend that you access the application from a desktop computer or laptop. Please make sure you have enough time at your disposal and that you prepare all the documentation necessary to complete the application in advance.

Please note that all attached documentation must be legible and valid, and the size of each file must not exceed 30 MB.

Keep in mind that all submitted electronic application forms that are incomplete, or those that do not have the required documentation attached, will not be considered.

If you have not yet registered or created a User Account to apply to previous public calls/tenders through the system, you must first register.

Registration and Application

The electronic application form can be accessed and completed by clicking on the link provided by the Central State Office for Croats Abroad on its official website. You can initiate your registration by clicking the „Prijava“ („Login“) button and then „Registriraj se“ („Register“). To register in the system, you must enter a username and a password. Your username should be your email address, and your password should be a combination of at least 7 characters, including at least 1 uppercase letter, 1 special character, and 2 numbers.

Important note: If you have previously applied to the Office's tenders conducted via the e-application system (e.g. to the Public Call for the application of special needs and projects of interest to Croats abroad for the purpose of obtaining financial support), due to changes in the method of application to the e-system, during your first subsequent application, you will need to set a username instead of the e-mail address you used to apply. The username you choose will be used for all future applications to the e-system.

After registering, you will receive an activation link by email. Complete your registration by clicking the link provided in that email. Only then will you be able to log in with your username and password, access the electronic form and begin completing it.

If you forget your username and/or password, click „Forgot your password? “ and follow the instructions. If you still cannot access your account, you must register again using a new email address, different from the one used in the initial registration.

New Application

To start a new application, select the „**Moji zahtjevi**“ („My applications“) button on the toolbar at the top of the page and choose the public tender you are applying for: „**Javni natječaj za organizacije hrvatskog iseljeničtva**“ („Public Tender for Croatian Diaspora Organizations“). After selecting the tender, click „**Kreiraj zahtjev**“ („Create application“).

The application process consists of several sections:

1. Basic Information
2. Information about the Applicant
3. Information about the Program/Project
4. Evaluation and Sustainability of the Program/Project
5. Program/Project Budget
6. Attachments (Upload Files)

By following these sections and question groups, you access the electronic form in which you need to fill in all fields with your application and program/project information.

NOTE: After completing each section, click “Spremi” (“Save”) to save your information.

If you have not filled in all required fields, a red warning will appear when attempting to submit the application, indicating the section and field that have not been completed. You must return to that field, enter the required information, and save it before submitting the application.

The electronic form can be completed in multiple sessions: simply save all data after entering it. Your application will be saved with the status “u izradi” (“In progress”), allowing you to exit the application and return later to continue completing it.
