1. BACKGROUND

The European Defence Agency was established on 12 July 2004, and is governed by Council Decision (CFSP) 2015/1835 defining the statute, seat and operational rules of the European Defence Agency.

The Agency has its headquarters in Brussels.

The main task of the EDA is to support the Council and the Member States in their effort to improve the Union's defence capabilities in the field of crisis management and to sustain the Common Security and Defence Policy (CSDP) as it currently stands and as it develops in the future.

The Agency is structured into four directorates. Three operational directorates: Cooperation Planning & Support; Capability, Armaments & Technology; and European Synergies & Innovation and the Corporate Services Directorate.

2. THE AGENCY'S WAY OF WORKING

The Agency is an "outward-facing" organisation, constantly interacting with its shareholders, the participating Member States, as well as with a wide range of stakeholders. It works in an integrated way, with multi-disciplinary teams representing all the Agency's functional areas, to realise its objectives. Its business processes are flexible and oriented towards achieving results. Staff at all levels need to demonstrate the corresponding qualities of commitment, flexibility, innovation, and team-working; to work effectively with shareholders and stakeholder groups, formal and informal; and to operate without the need for detailed direction.

3. THE DIRECTORATE COOPERATION PLANNING AND SUPPORT

The Cooperation Planning & Support (CPS) Directorate focuses on the early identification of requirements at European level and the through-life aspect of capabilities. The directorate is responsible for capability planning through the Capability Development Plan (CDP), the Cooperative Programme Database (CODABA) and the Coordinated Annual Review on Defence (CARD), and Pooling & Sharing including the Code of Conduct. It is also responsible for critical enablers to support defence cooperation and enhance interoperability: military airworthiness, standardisation and certification, test and evaluation and education and training. In addition, the directorate provides support to CSDP military and civilian operations and missions and EU Battlegroups, at the request of their Member States.

The CPS Directorate also supports the Member States in identifying operational and financial consequences, as well as opportunities, that SESAR (Single European Sky ATM Research programme) may bring to European air forces and facilitates the coordination of military views in this context. In this context, the directorate acts as the military interface for the EU institutions (e.g. European Commission/DG MOVE, EASA), as well as other SESAR related bodies (e.g. SESAR Deployment Manager, SESAR Joint Undertaking), on SES (Single European Sky) related issues.

In the wider context of military aviation, the CPS Directorate supports the Member States in their efforts to enable RPAS integration in non-segregated airspace and in harmonizing military aviation safety issues.
